The chart displays the population aged 15 and over in 2019, categorized by sex and age group. The Y-axis represents the number of people in thousands, ranging from 0 to 1,000. The X-axis lists age groups from 15-19 to 65+. A red line indicates the total population across all age groups, which remains relatively stable around 950,000. The population is slightly higher for males than for females across most age groups.
