

The graph illustrates the trend of deaths per 100,000 people in the United States over a 60-year period. The data shows a significant decline from 1950 to the late 1990s, with a notable dip around 1960 and a period of relative stability in the 1970s and 1980s. The rate then rose slightly in the early 2000s before declining again towards the end of the period shown.

Year	Deaths per 100,000 people
1950	18.0
1952	14.0
1955	10.0
1958	7.0
1960	12.0
1962	14.0
1965	10.0
1970	12.0
1975	13.0
1980	13.0
1985	12.0
1990	10.0
1995	10.0
2000	7.0
2005	10.0
2010	9.0
